

Log: 1

Meeting No: 1

Date: 2025/11/2

Start Time: 9:30 AM

Last Visit Date:

Finish Time: 11:00 AM

Items discussed:

1. Overview of the HeartWay project objectives and proposed architecture.
2. Instructions for FYP GitHub and Discord integration workflow.
3. Repository setup process and branch naming conventions (main, Increment1, Increment2 etc.).
4. Creation of standard folder structure for project documentation and development.
5. Use of commit tags and standardized commit message format.
6. Trello setup for task management and supervision tracking.
7. Joining the official Discord server and setting up webhook notifications.

Achievements:

1. Successfully created public GitHub repository named "FYP_HeartWay".
2. Added supervisor (sandipdhakal2024) as collaborator.
3. Created branch Increment1 and added required folder structure:
 - 01_Artifacts/ readme.md
 - 02_Log_Sheets/ readme.md
 - 03_Development/ readme.md
 - 04_Reports/ readme.md
4. Added Discord webhook integration for push notifications.
5. Joined the FYP Discord server and verified message delivery from GitHub.
6. Created Trello board "PrasunPaudel_HeartWay" and invited supervisor.

Problems (if any):

1. Faced issue while uploading folders to GitHub. Only files were stored since folders just represented locations and needed at least one file to appear.
2. Minor confusion while configuring the webhook payload URL on GitHub (resolved through testing).

Tasks for Next Meeting:

1. Research and analyze five similar software related to HeartWay's domain.
2. Note their main features, user flow, and unique UI patterns:
 - a. Navigation system, View Layout, Color Theory
 - b. Framework through Wappalyzer or similar tool
3. Test and research how each components function.
