

Logbook: 1

Meeting No: 03

Date: 2025/12/07

Start Time: 10:15 PM

Last Visit Date:

Finish Time: 10:45 PM

Items discussed:

- Reviewed the overall progress made with the first supervisor's guidance.
- Presented all four previous logbooks for verification, including research work, UI/UX analysis, button design study, wireframe made from 5 similar project, journal findings, ERD preparation steps, entity listing, and use case modelling progress.
- Confirmed the project is moving in the correct direction and acknowledged the consistency of documentation.
- Provided feedback on refining upcoming deliverables (SRS, Use Case Modelling, and ERD).

Achievements:

- Presented all completed work from Logbook 1 to 4, including UI/UX research, wireframe, journal analysis, entity listing, and use case preparation.
- Showed the refined ERD-related attributes collected from multiple journals.
- Demonstrated the overall progress of the project setup (GitHub, folder structure, Trello, and research tasks).
- Supervisor confirmed that the work completed so far is accurate and on the right track.

Problems (if any).

Tasks for Next Meeting:

- Develop a complete Software Requirements Specification (SRS), outlining all functional behaviours and essential non-functional expectations of the system.
- Prepare a detailed Use Case Model, including use case descriptions, actor definitions, and interaction mapping for all system roles.
- Construct the final ERD, ensuring accurate relationships, data attributes, and structural completeness to support future database development.
