

Log: 6

Meeting No: 17

Date: 2025/12/29

Start Time: 8:00 AM

Last Visit Date: 2025/12/15

Finish Time: 8:30 AM

Items discussed:

- Preparation of the Context Diagram (DFD Level 0) representing the overall system boundary and external entities.
- Design of Data Flow Diagram (DFD Level 1) with detailed processes, data stores, and data flows.
- Development of Sequence Diagrams for major use cases covering all user roles.
- Creation of Collaboration Diagrams to illustrate object relationships and message interactions.
- Review and update of WBS and Gantt Chart based on current project progress.
- Discussion on remaining documentation requirements as per interim report guidelines.

Achievements:

- Successfully created the Context Diagram (DFD Level 0) clearly showing system scope and interactions with external entities.
- Designed detailed DFD Level 1 diagrams representing core system processes and data flow accurately.
- Completed Sequence Diagrams for key use cases demonstrating time-ordered interactions among system components.
- Developed Collaboration Diagrams showing structural organization and message passing between objects.
- Updated the WBS and Gantt Chart to reflect completed and ongoing tasks aligned with the project timeline.

Problems (if any).

Tasks for Next Meeting:

- Implement login functionality for the system.
- Prepare detailed test cases for the login module.
- Finalize and complete the interim report.
